NEUROLOGY FOR THE NON-NEUROLOGIST

October 28, 2016

**The Essex
Essex, Vermont**

CONFERENCE DESCRIPTION

The Neurology for the Non-Neurologist conference is designed to offer the most up-to-date information for primary care providers as they are often the first health care professionals to encounter a neurological problem. The conference is designed to teach the non-neurologist how to diagnose common neurological disorders, order appropriate diagnostic studies and provide a guide for therapy and appropriate patient care.

Primary care physicians, nurses, nurse practitioners, physician assistants and other medical professionals with an interest in neurology are encouraged to attend.

OBJECTIVES

1. Recognize key issues in caring for women with neurological conditions.
2. Identify diagnosis and treatment strategies for neuro/cardiogenic syncope.
3. Determine diagnostic criteria for neuro-infectious disorders in the primary care setting.
4. Describe key factors in the evaluation and treatment of pediatric epilepsy.
5. Identify chronic headache conditions and determine appropriate treatments.
6. Discuss important issues in caring for the child with cerebral palsy.
7. Describe cognitive and brain changes that may predict risk for dementia.

REGISTRATION FEE

Physicians - \$195. Other Health Professionals - \$150.

This fee includes course syllabus via electronic download (printed syllabus available for an additional \$15), breakfast, lunch and breaks. Course fills quickly and space is limited, **please register early.**

Refunds, minus an administrative fee of \$50, will be made only if notice of cancellation is received, in writing, by **October 1, 2016.** No refunds are possible after that date.
