Invite *all Female Medical Students* in New England to:

## The B.♀.N.E.S. Initiative

(Bringing Orthopedics to New England  
Students of medicine)

- Hear from women in orthopedic residency, fellowship, and practice discuss how they manage their professional and personal lives.
- Learn and practice orthopedic surgical skills, including suturing, fracture reduction and fixation techniques, splinting, and more.
- **Join us for an interactive session with skills training and learn why orthopedics is a great profession for women!**
