Subject: RE: Orthopedics SVI

A new specialty requirement to add to your list, some General Surgery specialty programs may require a customized personal statement. We have worked with them to provide the following note to applicants in MyERAS and our public '[Participating Specialties and Programs](#)' website (click 'Surgery-General' under MD Residency):

"Applicants applying to Surgery-General residency programs should be aware that programs may require customized personal statements and should review the program requirements listed in MyERAS and/or on the program's website."

Furthermore, the applicants will need to contact the programs directly for detailed customized personal statement requirements.

Thanks,

Gary Lee
Senior ERAS Specialist
