Teaching Academy Annual Report - FY24

The Teaching Academy Annual Report

July 2023-June 2024

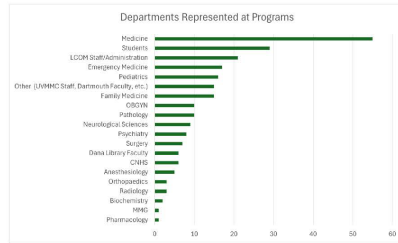

The mission of the Teaching Academy is to become a **community** of educators that leads **educational innovation** and scholarship by fostering diversity, equity, and inclusion and promoting faculty members' pursuit of **education excellence** and scholarship.

New Teaching Academy Membership Levels

The **Protégé** member level is now **Associate Member** and encompasses early career faculty as well as residents/fellows/postdocs. Residents/fellows/postdocs must still complete a scholarly project and have a Teaching Academy sponsor. New Assistant Professors will have extra support and targeted communication about attending Teaching Academy events and will have a 2-year time limit to reapply at the Member level.

In addition to this shift in our entry membership level, **Master Teacher** level is now **Expert Teacher**. In keeping with the current trends in academies across the country, we want to highlight the level of skill that this level of membership requires.

MISSION: The mission of the Teaching Academy is to become a **community** of educators that leads **educational innovation** and scholarship by fostering inclusive excellence and promoting faculty members' pursuit of **educational excellence** and **scholarship**.
