

Help to Access Child Care for Essential Workers due to school/child care program closures

March 2020

Let's Grow Kids is working with the Child Development Division to connect essential workers, like those in health care, to emergency child care services to help during the child care and school closure.

As outlined in the press release from the State of Vermont, each family needing these services can be connected to this care by:

- Completing this short web form: <https://webportalapp.com/webform/essentialworkers>;
or by
- Calling the Help Me Grow Resource Center at 211 extension 6.
