Overview

Situation update

- Surveillance
- Testing
- Other VDH Updates
- New resources/presentations
- Practice Issues: payment issues; Medicaid retainer; continued F/U on telehealth/phone care

Question and Answer

[Please note: the COVID-19 situation continues to evolve very rapidly – so the information we're providing today may change quickly]

Situation update

- 1 additional positive patient at Champlain Valley Expo surge site
- □ 11 patients in ICU
- 10 patients on ventilators
- Some test results reveal patients w/o medical homes. Consider CHCB, FQHCs for referral (FTF visit is best practice for new patient but not required)

4

Situation update (cont'd.)

VERMONT **DEPARTMENT OF HEALTH**

April 15, 2020

Vermont Child Health Improvement Program

UNIVERSITY OF VERMONT COLLEGE OF MEDICINE

Situation update: Testing

- Public Health Laboratory ran 292 tests yesterday and doing 307 tests today (198 from VT Veterans' Home)
- □ UVMMC ran 32 rapid tests (45-minute turnaround)
- UVMMC ran 50 additional in-house tests
- □ 133 tests sent to Broad (MIT)
- 27 tests sent to Mayo (but moving away from Mayo due to transport issues)
- Test per capita variability by Hospital Service Area (SEE map next slide)

6

Tests by Hospital Service Area

COVID-19 Per Capita Tests by Hospital Service Area

Includes tests from offices to private labs, from hospitals/other testing centers.

Based on address of collection site.

April 15, 2020

7

Other VDH Updates (Commissioner Levine)

- Serology Testing Work Group under way (anticipate report by week's end) – priority this week.
 - Speculation that most people have NOT seen virus. Initial goal was to protect the healthcare system; next issue will be protecting vulnerable people from illness through increased testing and population health strategies, vs. health care strategies.
- Most recent data suggests entering plateau phase; most pos. in facilities (large/modest outbreaks). Surge predictions???
- 28 deaths (4/14/20) higher per capita than many states (but not comparable to NY, CA, LA)
- Doubling rate is 9-11-12 days
- PPE picture is favorable (please resubmit requests if still awaiting supply).

New Resources/Presentations

- CHAMP Network MOC Project call 4/14/20 Managing ADHD in the home to support school engagement: Strategies PCP's can offer parents/caregivers
- Today's Pediatric Grand Rounds COVID-19
 Town Hall: The Non-Infectious Complications of This Virus
- Today: Children and Young Adults' Mental Health During the Coronavirus (UVM Continuing Education – for parents, caregivers, community)

We will disseminate presentations/links

Practice Issues

Payment Updates, Medicaid Retainer Policy

Vermont Chapter

INCORPORATED IN VERMONT

American Academy of Pediatrics DEDICATED TO THE HEALTH OF ALL CHILDREN®

April 15, 2020

Payment Updates

- Pediatrician colleague received Medicaid payment for wellness codes 99392 – 99394.
 - Used usual modifiers (as if an in-office visit) with POS of 2 for dates of service in April.
 - Medicaid had denied late March claim dates plans to resubmit
 - We believe policy was supposed to be active as of 3/23/20.

Ongoing discussion re: WCC under 2 y.o. (esp. with BCBSVT)

COVID-19 Vermont Medicaid Retainer

- Examples of eligible organizations: primary care, FQHCs, RHCs, HHAs, Adult Day, ambulance svcs., dental, licensed mental health clinicians, ABA
- Application: financial info, narrative re: practice changes, payer mix, anticipated revenue loss
- □ Application period: 3/27/20 **4/21/20**
- Weekly review by Agency of Human Services team
- Providers must continue to serve Medicaid population throughout State of Emergency
- "Funding may be subject to recoupment"

Current Status

Practice Uptake

- 39 applications total
- 13 approved for total of 829K to be deposited electronically to usual Medicaid payment account
- Second review cycle this week (week of 4/13/20)
- Practice type distribution (1st review cycle): pediatric, naturopathic, specialty, residential care, adult day, recovery (mostly rural)

Issue of Concern & Response

- Retainer is one of several provider financial relief mechanisms pursued by AHS as part of multi-phased plan based upon potential (emergency) funding mechanisms
- Thus, remains unclear whether retainer = grant or loan that will require payback. Practices may NOT be applying due to this uncertainty.
- Health care coalition will send letter noting anticipated ongoing significant adverse impact on pediatric practices even as we move into "recovery phase"
- https://dvha.vermont.gov/covid-19

Continue to follow telehealth, telephone coverage, other financial relief.

- Larner College of Medicine student experience
- UVM Children's Hospital pediatric resident experience
- Serology Testing Work Group Report

Questions/Discussion

- Q & A Goal: monitor/respond in real time record/ disseminate later as needed (and/or revisit next day).
- □ For additional questions, please e-mail:
 - vchip.champ@med.uvm.edu
 - What do <u>you</u> need how can we be helpful (specific guidance)?
- VCHIP CHAMP VDH COVID-19 website:

https://www.med.uvm.edu/vchip/projects/vchip_champ_vdh_covid-19_updates

- Next CHAMP call: *Thursday, April 16, 12:15-12:45* (same webinar/call information invitation to follow)
- □ Please tune in to VMS call with Commissioner Levine:

Tuesday, April 21, 12:15-12:45

Phone: 1-802-552-8456

Conference ID: 993815551
