Vision: The Care Coordination Summits will bring together healthcare professionals, organizations, patients, families, and other interested parties around a shared vision for improving and uniting care coordination efforts for children and youth with special health needs.

Goals:

- Assess the current landscape of care coordination systems for children and youth with special health needs in Vermont.
- Partner with stakeholders to:
 - Gain consensus of priority areas to address
 - Support shared learning and identification of improvement strategies

2:30-2:35 **Welcome & Opening Remarks**
