

Community Engagement & Outreach in the NNE-CTR: The What, Why and How

This seminar will focus on the NNE-CTR Community Engagement & Outreach Core, which seeks to engage the community in every aspect of research, with a focus on community health equity priorities. Our Rural Research Navigators serve as Community Ambassadors to help conduct, promote, and advance community-engaged research in northern New England. They engage a diverse set of partners across our region and collaboratively strengthen community involvement in health research. Learn about some of the exciting work we are doing in our region and think about how your own research might benefit from working with our CEO core navigators!

**Jan Carney, MD,
MPH**

Associate Dean for
Public Health &
Health Policy, UVM
Larner College of
Medicine; CEO Core
Lead

**Carrie Sullivan,
MPH**

Rural Research
Navigator,
MaineHealth
