**Subject:** Pathoma discount - deadline in 7 days

Dear Class of 2020,

Pathoma is offering the **newly-released 2017 edition** of Dr. Sattar's Fundamentals of Pathology text with **12-month access** to online videos for only **\$85** (regularly \$99.95) for our class. This offer is valid until Thursday, Mar 16, at midnight. Visit the [Pathoma.com Sign Up page](#), choose the 12-month subscription, and use coupon code **UVM85** to obtain the discount.

*Dr. Sattar regularly updates and adds content to the online videos; 12 month access allows students to view the most updated videos throughout class studies and board exam prep.*

#### WHAT IS PATHOMA?

Pathoma is a pathology review designed for use *both* during pre-clinical course work and USMLE step 1 exam preparation. It is considered an essential resource by most US medical students and has an **A+ rating** in the 2017 edition of First Aid. [Visit our testimonials page](#) or view independent [comments at Student Doctor Network](#). You can also [watch a sample clip](#) on YouTube.

#### RECENT TESTIMONIAL

“Pathoma is a tremendous resource in studying for USMLE Step 1 and preparing for third year clerkships. Dr. Sattar's lectures cover all of the high yield pathology points. He explains everything from a basic mechanistic approach which is critical because that is how the questions are tested, but more importantly it develops true understanding which is never forgotten. Pathoma is now the first topic I mention to underclassmen asking for advice.” Benjamin Strong (Wayne State), **USMLE Step 1 score 272, Step 2 score 286**

#### WHO IS DR. SATTAR?

- Associate Professor of Pathology at the University of Chicago where he serves as a full-time academic surgical pathologist.
- Associate Director of the 2nd year Pathophysiology and Therapeutics course at the University of Chicago's Pritzker School of Medicine.
- Author of the female reproductive and breast chapter in the current edition of Robbins Basic Pathology.
- One of the most highly ranked teachers for national USMLE Step 1 board review courses.
