Subject: DIV & Immunization Status
Date: Thursday, February 15, 2018 11:31:56 AM

Hi co2021 DIV students:

To prevent any confusion about DIV and immunization status, please refer to the information below:

- If your immunization status is “COMPLETE”, you may begin DIV on March 7.
- If your immunization status is “In Process”, you will be able to begin DIV on March 7, but must follow directions below to achieve a “COMPLETE” immunization status. **If you are matched with a Preceptor at CVMC, Central Vermont Medical Center, you will not be able to begin DIV until you achieve a “COMPLETE” immunization status.**
- If your Immunization status is “Out of Compliance”, you will not be able to begin DIV until you achieve an “In Process” immunization status (please see CVMC exception above).

Timely completion of immunizations is a requirement and professional expectation of all medical students. For additional information, please refer to the UVM Larner College of Medicine Medical Student Handbook [Policy 670.10 Immunizations and Other Health Information](#).

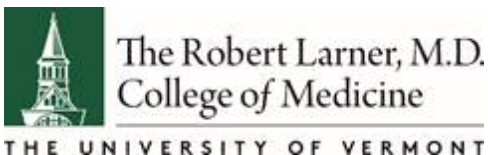

Please monitor the completion status of Immunization and Serology requirements by checking the “Student Health Services” academic history tab notes in Oasis, and take necessary action. Once ALL immunizations are “COMPLETE”, you need to provide records to document completion of your requirements to Student Health Services via SHSQNA@uvm.edu. Once your records have been clinically reviewed and administratively updated, you will receive an email from the Center for Health and Well Being with notification that you have a secure message with an attachment containing your entire COM Clearance on mywellbeing.uvm.edu.

(Once you receive a COM Clearance message on mywellbeing.uvm.edu, it will remain there and you can log in at any time and retrieve it as many times as needed. You will not need to request another copy of your COM Clearance from Student Health Services again).

Thank you and please follow the instructions above as staff at OMSE are unable to assist or guide you through Immunization requirements due to [FERPA](#).
