EARLY CAREER VISITING PROFESSORS

The Early Career Visiting Professorship was launched in 2017 by CVRI’s Early Career Advisory Committee. These professorships bring to campus a successful early career investigator for a series of events focusing on trainees and junior investigators.

Previous Early Career Visiting Professors

Benjamin Prosser, PhD – October 2017
Assistant Professor, Department of Physiology, Pennsylvania Muscle Institute, Perelman School of Medicine, University of Pennsylvania. The American Heart Association named Dr. Prosser its 2017 "Outstanding Early Career Investigator."

- Research Seminar: Inotropy via Cytoskeletal Regulation
- Interactive Discussion: Establishing Independence: Lessons learned in starting a new lab
