Unsatisfactory Marginal Satisfactory Very Good Outstanding Cannot Evaluate

Please specify the student's strengths and areas of improvement:

Medical Knowledge

• Students must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological and social-behavioral sciences, as well as the application of this knowledge to patient care.

Unsatisfactory Marginal Satisfactory Very Good Outstanding Cannot Evaluate

• Students must demonstrate knowledge in basic, clinical, and population sciences related to the study of Medicine. Students must apply of knowledge required for patient care in current and evolving health care practice settings.

Unsatisfactory Marginal Satisfactory Very Good Outstanding Cannot Evaluate

• Students must demonstrate skills in how to acquire and analyze the information for the proper diagnosis and development of treatment plans required for patient care as well as information and skills needed for the prevention of disease and promotion of health.

Unsatisfactory Marginal Satisfactory Very Good Outstanding Cannot Evaluate

• Students must demonstrate skills to locate, analyze, and synthesize information from the medical literature using appropriate resources, and technology required for patient care.

Unsatisfactory Marginal Satisfactory Very Good Outstanding Cannot Evaluate

- Students must demonstrate behaviors of life- long learning and continuous self-assessment and improvement.

Unsatisfactory **Marginal** **Satisfactory** **Very Good** **Outstanding** **Cannot Evaluate**

Please specify the student's strengths and areas of improvement:

Practice-based Learning and Improvement

- Students must investigate and evaluate evidence, both in appraisal and assimilation of evidence required for patient care. Student must teach and perform research to contribute to the education of other health professionals.

Unsatisfactory **Marginal** **Satisfactory** **Very Good** **Outstanding** **Cannot Evaluate**

- Students must demonstrate skills in investigation and evaluation of evidence, and in appraisal and application of evidence required for patient care in current and evolving practice settings, including diagnosing and treating health problems and promotion of health.

Unsatisfactory **Marginal** **Satisfactory** **Very Good** **Outstanding** **Cannot Evaluate**

- Students must develop life-long learning skills and methods for continuous self-assessment and improvement based on reflection and feedback in the development of knowledge, skills and attitudes required for patient care in current and evolving health care settings.

Unsatisfactory **Marginal** **Satisfactory** **Very Good** **Outstanding** **Cannot Evaluate**

Please specify the student's strengths and areas of improvement:

Interpersonal and Communication Skills

- Students must demonstrate the interpersonal communication skills necessary for effective exchange of information and demonstrate the ability to work collaboratively with patients, families and health professionals to provide compassionate, appropriate, and effective patient care. Student must communicate effectively with patients, families, and the public, as appropriate, across a broad range of socioeconomic and cultural backgrounds.

Unsatisfactory **Marginal** **Satisfactory** **Very Good** **Outstanding** **Cannot Evaluate**
