

GENDER INCLUSIVE RESTROOMS

[QUICK FACTS]

GOAL

All campus buildings should have a range of restroom options available to meet individual needs.

The range of restrooms will include:

①
SINGLE OCCUPANCY

②
MULTIPLE OCCUPANCY GENDER SPECIFIC
(Men's Room, Women's Room)

③
MULTIPLE OCCUPANCY GENDER INCLUSIVE
(Private stalls, public sinks)

WHAT'S NEW

All single-occupancy public restrooms on Main Campus are now gender inclusive.

As Multiple Occupancy Gender Inclusive restrooms are created at UVM, they'll get privacy upgrades including closing gaps between stall walls and doors.

STATUS

New campus buildings will be built with gender inclusive restrooms. All other buildings:

COMPLETED

Old Mill
Jeffords
Bailey/Howe
Votey
Discovery Hall
Given East

U Heights South
Perkins
Mann
Royall Tyler Theater

PLANNED

Waterman
Lafayette
Billings

UNDER CONSTRUCTION

Taft School
Innovation Hall

WHY GENDER INCLUSIVE RESTROOMS ?

Gender-inclusive restrooms benefit a variety of individuals who face discomfort and even danger when accessing gender-specific restrooms.

Gender-inclusive restrooms help:

TRANSGENDER & GENDER NON-CONFORMING PEOPLE

who often face stress, anxiety and mistreatment when accessing gender-specific restrooms.

PEOPLE WITH DISABILITIES

or others who have caregivers of a different gender.

PARENTS

who are often forced to leave children of a different gender unattended in public restrooms.

EVERYONE

We all benefit from increased efficiency and shorter wait times, as well as less cost of new construction projects due to reductions in water and sewage lines.

These spaces start conversations that are crucial for educating the public and breaking down the social and cultural barriers that perpetuate gender-based discrimination of all kinds.
