

Service, Leadership, Research, Honors and Awards

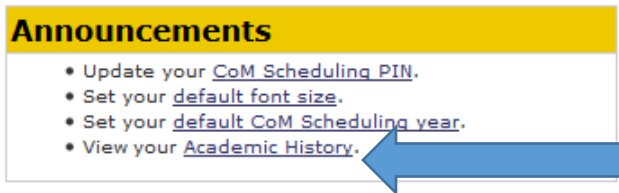

Students are encouraged to maintain a record of service, leadership and research activities performed, and honors and awards received during their medical education in Oasis. Space has been provided as an opportunity for students to build their professional portfolio at all levels of the curriculum. It may be used as a resource for building a CV or other professional documentation.

The Office of Medical Student Education will use these records to build Dean's Letters and write LORs. Significant LCOM awards are read as students cross the stage at Commencement.

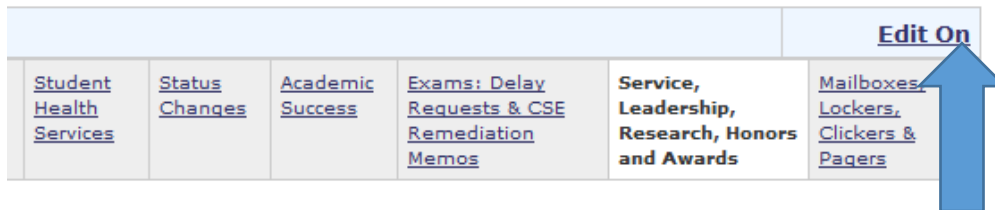

Please note: These records are not retained by the institution once a student graduates, withdraws or is dismissed from the Larner College of Medicine. If a third party requires verification/documentation related to any item listed, it should be requested from the original source of the honor or award, not through OMSE.

Instructions

The **Announcements** box at the top of your Oasis **Schedule** contains a link to your **Academic History**.

Click on the **Service, Leadership, Research, Honors and Awards** tab to view or edit your information.

Click on **Edit On** to enter/edit information and, if you wish, to upload supporting documentation. When finished, be sure to hit **SAVE** at the bottom of the screen.

To upload support documentation (optional)

1. Click on **Add files** to select the file
2. Click on **Upload** to actually upload the file
3. Click on **Save** to save the uploaded file to your record
