Subject: Match Day Info

Last year we developed a comprehensive resource for the Medical Students at the University of Nebraska Medical Center we are sharing with medical students at other Universities especially for Match Day. Summary posted below.

We produced amazing results for last years class of M4's for Match at UNMC. The letters of appreciation from M4s were eye opening. [MD Relo: Testimonials](#)

When M4s match, most need to find safe affordable housing in an unfamiliar city quickly. M4s start looking online and not exactly sure where to go or who to trust, they naturally are confused and stressed. The solution to this was experienced comprehensive research network.

We have 30 years experience identifying doctor-recommended, hospital orientated Realtors we know and trust in each residency location. These certified Realtors are willing to advise and consult M4s at no cost or obligation with their big move to residency. It's a valuable resource and stress relief for M4s to know they can have a trusted doctor-referred friend waiting to help them through the relocation process. [MD Relo](#)

In addition, we have researched all the latest rental / housing scams on advertising sites like Zillow and Craigslist to share with M4s so they do not get taken.

You are welcome to contact Sue Pope, Student Affairs at the University of Nebraska Medical Center UNMC as a reference on who we are and what we do.

spope@unmc.edu***

We understand Universities have policies against sharing outside information of companies unless it's deemed research and universally beneficial to the student body. Our research network will always be absolutely free, with no obligation, no unwanted solicitations ever and their contact information will always remain private and NEVER sold! see attached)

We started the MD Relo Medical School Resource Program free for all medical students when our son Gage Rensch and his friends went through Match Day, suddenly had to move and had no one to trust for help. This research network is a tribute to their hard work and dedication to the medical profession. [D Relo: How it Works](#)

Please feel free to call me anytime on how we can possibly help your University student body.

Take care.
