RESEARCH EXPERIENCE

University of Vermont, Vermont Center on Behavior and Health
Pre-Doctoral Trainee, NIDA T32 DA 007242. 2014-current. PI: Sarah H. Heil, PhD.
Current behavioral pharmacology research is investigating opioid use disorder with a specific focus on family planning, psychosocial risk factors, and potential treatment interventions.

University of California, San Diego, Department of Surgery
Research Coordinator. 2002-2005. PI: Raul Coimbra, MD, PhD.
Research focused on the molecular inflammatory pathways of sepsis and hemorrhagic shock.

Harvard University School of Medicine, Brigham and Women's Hospital
Research Associate. 2000-2001. PI: Frank Kuo, MD, PhD.
Research utilized microarray technology to identify genetic compositions of human sarcomas.

Washington University School of Medicine, Department of Psychiatry
Research Assistant. 1999-2000. PI: Steven Mennerick, PhD.
Laboratory research concentrated on understanding of alcohol exposure and neuronal excitation and inhibition by glutamate and GABA neurotransmitters and their receptors.

CLINICAL EXPERIENCE

Springfield Area Parent Child Center (SAPCC), Learning Together Program
Mental Health Program Director. 2011-2014.
The Learning Together program provides life skills and parenting support to assist young mothers (16–24 years old) in negotiating various obstacles to self-sufficiency to address their needs and those of their children. Provided individual and family psychotherapy, crisis intervention, and case management in office and home-based environments. Provided staff consultations and trainings.

Health Care and Rehabilitation Services (HCRS), Early Childhood and Family Mental Health
Child and Family Mental Health Clinician. 2008-2011.

HCRS is a community mental health organization that provides comprehensive services for children and adults in rural Vermont communities. Addressed mental health needs of families with children less than six years old and pregnant women (22 years old and younger) by providing home and clinic-based parent-child psychotherapy and case management.

University of California, San Francisco, The Infant-Parent Program, SF General Hospital
Intern. 2006-2007.

The Infant-Parent Program is a multifaceted mental health program serving a primarily low-income, ethnically diverse population in the Bay area. Provided in-home based assessments, infant-parent psychotherapy, and child development education for families with children zero to three years old; cases included abused and neglected children, custody and placement concerns, and parents experiencing extreme psychological distress and substance use disorders.

San Francisco State University Psychology Clinic
Intern. 2006.

The Psychology Clinic provides individual, long-term outpatient psychotherapy for the diverse San Francisco State University student body and Bay area community. Addressed mental health needs of adults struggling with depression, anxiety, relationship problems, and prodromal psychotic symptoms using empirically validated treatment interventions.

San Francisco Unified School District
Intern. 2005.

The San Francisco Unified School District provides educational services for children residing in San Francisco. Provided year-long psychotherapy for children in the Special Education Program at Aptos Middle School referred for mental health services because of poor academic performance, behavioral issues, and emotional disturbances. Consulted with teachers and resource specialists.

Polinsky Children's Center
Residential Counselor. 2002-2003.

The Polinsky Center offers emergency shelter for abused and neglected children in San Diego County. Worked with young children residing in the shelter and co-facilitated group therapy. Attended the crisis hot line and collaborated with social services organizations.

Archway Communities: Substance Abuse Treatment Center
Drug and Alcohol Detox Counselor. 1999-2000.

Archway Communities provides detox, outpatient, and residential substance abuse treatment programs for adult populations. Screened adults for admission into detox program; conducted intake and assessment interviews.
