

Mission Statement

The Clinical Simulation Laboratory (CSL) is dedicated to perfecting healthcare delivery by using simulation to improve clinical skills and enhance patient safety through innovations in clinical training, educational research, and quality improvement. Through these efforts the CSL seeks to achieve systems integration, interprofessional collaboration and value-driven healthcare.

Vision Statement

Healthcare providers empowered with the skills to deliver the best possible care to every patient, every time - working within a culture of excellence and continually striving to elevate the standard of patient care.
