Two Opportunities for Early Career Investigators Available Through

1. NASTH has issued a call for applications for a funded Student Research Fellowship. Mentors receive a stipend for their lab. This is open to 1\textsuperscript{st} to 3\textsuperscript{rd} year medical students, PhD students or MD/PhD students. The research focus may be lab-based, clinical or epidemiology research. Applicants are required to develop a research proposal in consultation with their mentor that can be completed within the 8 to 10 week fellowship period. Prior research experience is not required but is considered favorably, along with demonstrated academic achievement, service and leadership.

Fellows receive a $5,000 stipend and a $2,000 travel allowance for attending and presenting results at a professional meeting. A mentor is required and that mentor receives a $1,000 stipend.

The application deadline is March 30, 2018 and winners are notified April 15. The website is at this link: [http://nasth.site-ym.com/?page=ResearchFellowship](http://nasth.site-ym.com/?page=ResearchFellowship)

2. NASTH, along with the HTRS has planned a Research Colloquium for early career investigators taking place in advance of the 2018 THSNA conference (Thrombosis and Hemostasis Societies of North America; [www.THSNA.org](http://www.THSNA.org)) in March. CVRI is supporting this opportunity for residents, fellows, post-docs and junior faculty considering or pursuing a career related to thrombosis and hemostasis.

Registration is FREE and travel awards are available. The application deadline is January 5, so please share this information and consider now if you would like to attend.
