University of Vermont, College of Medicine

8:00 – 9:00 AM Davis Auditorium

### Monday October 1, 2018

Workshop # 19-101-04

\* “Low Back Pain”

Amanda Kolb, MD

Department of Family Medicine

University of Vermont Larner College of Medicine

### Monday October 8, 2018

Workshop # 19-101-05

\* “Healthier Patients through Quality Improvement. Can it be done in the Medical Home?”

John King, MD, MPH

Department of Family Medicine

University of Vermont Larner College of Medicine

### Monday October 15, 2018

Workshop # 19-101-06

\* “Depression and Medical Illness”

Laura McCray, MD, MSCE

Residency Program Director, Department of Family Medicine

University of Vermont Larner College of Medicine

### Monday October 22, 2018

Workshop # 19-101-07

\* “Update on Tick Borne Diseases in Vermont 2018”

Bradley Tompkins, MS, MPH

Vermont Department of Health, Burlington

### Monday October 29, 2018

Workshop # 19-101-08

\* “Academia and Global Health: Benefits and Ethics”

Pierce Gardner, MD

Pierce Gardner is a graduate of Amherst College and Harvard Medical School whose career has blended clinical medicine with public health with special emphasis on global health. Early training in epidemiology at CDC and Infectious Diseases at the Massachusetts General Hospital were followed by faculty roles at Harvard and the University of Chicago where he was the clinical director of the internal medicine training program as well as the infectious diseases program. With a special interest in immunization for adults, he served on the Advisory Committee for Immunization Practices (CDC) and the Defense Health Board. Throughout his career, Dr. Gardner has been deeply involved in the training of the next generation of students, residents, and junior faculty. In 1989, he came to Stony Brook as Associated Dean for Academic Affairs and Professor of Medicine. During his tenure, he advocated for global health activities for students and faculty and formalized clinical research opportunities for SB students. In 2001, he was seconded to the Fogarty International Center at NIH where he was instrumental in establishing a clinical research training program for scholars and fellows (both US and international) which has now provided early career training to more than 600 clinical investigators.

In support of improving patient care, The Robert Larner College of Medicine at The University of Vermont is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

**AMA:**

The University of Vermont designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

\*Available by Telemedicine
