

Physiatrist

The Department of Orthopaedics and Rehabilitation at The University of Vermont College of Medicine and The University of Vermont Medical Group is seeking a Physiatrist for a full-time position as assistant, associate, or full professor on the clinical scholar pathway. Responsibilities include patient care and an involvement in resident and medical student teaching. We are seeking an individual with a PM&R practice combining all aspects of outpatient care, with a focus on electrodiagnostic medicine. Rehabilitation management as an attending for comprehensive inpatient acute rehabilitation is expected on a limited basis.

Qualifications: Must be a board certified or board eligible physiatrist with an interest in comprehensive Physical Medicine and Rehabilitation (PM&R). Candidates must demonstrate an interest in teaching.

The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and/or service. Applicants are requested to include in their cover letter information about how they will further this goal.

The University of Vermont Medical Center, the primary teaching hospital for The University of Vermont College of Medicine, is a level I trauma and tertiary referral center serving northern Vermont and upstate New York. The Department has a strong history of excellence in both clinical and basic science research. Visit our website at: www.med.uvm.edu/ortho

Applications will be accepted until the position is filled. To apply, please send an electronic letter of application and curriculum vitae to:
