

COMMUNITY MEDICAL SCHOOL

SPRING 2019

February 19, March 5, April 2, May 14 • 6:00-7:30 PM, including a Q&A session
Carpenter Auditorium, Given Building, Larner College of Medicine, University of Vermont

“In Stroke, Every Minute Counts When Time = Brain”

According to 2018 American Heart Association statistics, someone in the U.S. has a stroke about every 40 seconds. Learn who is at risk, signs and symptoms, stroke subtypes, and what to do when someone has a stroke. Discussion will include advances in transport decision tools, therapies and research for acute stroke patients.

***Marilyn Cipolla, PhD** is a professor of neurological sciences at the Larner College of Medicine at the University of Vermont. She received her bachelor’s, master’s and doctoral degrees from UVM and holds joint appointments in UVM’s Department of Obstetrics, Gynecology and Reproductive Sciences and Department of Pharmacology. Cipolla is currently chair of the National Institutes of Health Acute Neural Injury and Epilepsy study section, a Fellow of the American Heart Association Stroke Council, and a recipient of UVM’s University Scholar award.*

***Evadne Marcolini, MD** is an assistant professor of surgery and neurological sciences at the Larner College of Medicine at the University of Vermont. She received her medical degree from the Larner College of Medicine and completed a residency in emergency medicine at Maine Medical Center. Prior to joining the UVM faculty, Marcolini served as both the trauma liaison for the Department of Emergency Medicine, as well as the medical director at SkyHealth Critical Care Aeromedical Service at Yale-New Haven Hospital. In 2018, she was honored with the American College of Emergency Physicians Service to College Award.*
