Imagine a council made up of young people from all across the state. They come together to discuss important topics, learn skills and most importantly advise the Governor and the General Assembly on policies that impact young people in Vermont.

You can help make that board a reality! The legislation this Summer Advisory Group will be helping shape will be the founding document for this board and be instrumental in shaping how its run and what its duties and powers are.

We need your voice in order to make this a reality. Please consider applying today!
