

# Clinical Integration Summit

LEARNING TO WORK TOGETHER TO CARE FOR  
OUR PATIENTS AND OUR PEOPLE

OCTOBER 14-15, 2017  
HILTON, BURLINGTON

## Join us!

Building a network from the ground up offers us both opportunities and challenges. How can we make this the best health care network it can be, both for our patients and for us? We have a lot of work to do, decisions to make, problems to solve — and endless opportunities to explore creative solutions.

This effort requires the unique strengths and talents of all our people, working together. Building connections will help us provide services that result in healthier, happier communities both inside and outside our walls. We hope you will lend your voice and vision to this first summit as we explore our future, and that you will be an active and optimistic participant in our network's creation.
