

Standard BioTools presents:

Advancing Cellular Insights with CyTOF and Imaging Mass Cytometry (IMC)

Please join us for a CyTOF and IMC lunch and learn!

CyTOF and IMC provide sensitive, clear detection of 40+ markers with minimal to no background, fast time to results, flexible workflows, and robust data quality. With over 2,000 publications and over 200 clinical trials, CyTOF and IMC applications span across all research phases and areas. These capabilities are critical for effectively maximizing results from precious samples and revealing functional insights that advance research and drive clinical action.

In this seminar, you will learn about:

- Applications across research areas (immunology, neurology, oncology, etc.)
- General overview and benefits
- Simple, flexible workflows
- Resources for getting started

Join us for lunch and learn what CyTOF can do for you!

CBSR-Research Technologies Seminar Series
Wednesday, March 12th, 2025 – HSRF Bldg. RM 200
Noon-1pm ~ Lunch provided

Please contact Megan Perkins or Amy Chappel with questions.

Wednesday,
March 12th
12-1pm
HSRF Rm 200
