

CBSR-Research Technologies Seminar Series

The Nikon AXR-NSPARC Point Scanning Confocal: Breaking the boundaries of sensitivity, speed, and resolution. Why Compromise?

Presenter: Nicholas O. Deakin, PhD, Advanced Biosystems Specialist

Wednesday, October 9, 2024 – HSRF 200 – 12-1pm. Join us!

Attend in-person: Lunch will be served

Attend via Zoom: <https://uvmcom.zoom.us/j/98079657971?from=addon>

This seminar will discuss current state-of-the-art point scanning confocal technologies and how the Nikon AXR-NSPARC system has evolved to enable high-speed, high-resolution imaging without the need to compromise.
