

Marie Meunier

Practice Support

I'm Marie and I'm one of the people who will greet you at the front desk as you enter our clinic. I have been here at the VCCYF for over 5 years and consider myself lucky to be able to be work with such a great group of people.

When I'm not here at the clinic, I enjoy spending time with my dog Molly, vacationing with family and creating artwork. I have a BA in Fine Art from UVM and now that my 2 kids are all grown up, I have a little more spare time to devote back into producing art. Currently, I'm honing my skills in realistic animal portraiture and wildlife illustration."
